## ABOUT US

**Mawaran Company** was established in **2016** with a clear vision to transform the automotive and industrial services sector in Iraq. We are not merely distributors; we are the "sole and official agent" for a group of international brands that stand at the pinnacle of global quality. Under the slogan "**The Sole of Trust**," we are committed to bringing the latest European innovations to our country.

# INTERNATIONAL AGENCIES & STRATEGIC PARTNERSHIPS

Mawaran Company: The Sole and Official Distributor in Iraq

**Mawaran Company** is proud to be the official and legal representative of four of the most prestigious European brands in the Iraqi market. We do not merely supply products; we provide guaranteed authenticity and direct technical support from the original manufacturers to our clients.

## 1. RYMAX LUBRICANTS (NETHERLANDS)

"The Pinnacle of Lubrication Science & International Standards"

As the official agent for Rymax, Mawaran Company offers advanced engine solutions certified according to the highest global benchmarks:

American  
Petroleum  
Institute

European  
Automobile  
Manufacturers  
Association

EELQMS  
EUROPEAN ENGINE  
LUBRICANTS QUALITY  
MANAGEMENT SYSTEM

◆ **International Certifications:**

• **API (American Petroleum Institute):** Rymax products hold the latest classifications, such as **API SP** and **CK-4**, ensuring unparalleled protection for both modern and heavy-duty engines.

• **ACEA (European Automobile Manufacturers' Association):**

Full compliance with strict European standards like **ACEA C3** and **A3/B4**, guaranteeing high performance and improved fuel efficiency.

• **EELQMS:** Adherence to the European Engine Lubricant Quality Management System.

◆ **OEM Approvals (Original Equipment Manufacturer):**

**Rymax lubricants** carry official written approvals from major manufacturers, including **Mercedes-Benz, Volvo Renault, VW and Scania**, meaning their use preserves the vehicle's factory warranty.

◆ **Full Synthetic Technology:** Utilizing premium base oils that maintain stability under Iraq's extreme high temperatures.

## 2. UFI FILTERS (ITALY)

"Filtration Technology for Formula 1 and Supercars"

**Mawaran** is the official distributor of **UFI Filters**, the primary supplier for **95% of the world's vehicle manufacturers (OEM)**.

- **FormulaUFI Innovation:** A unique technology in fuel and air filtration that prevents even the smallest harmful particles from entering the engine.
- **Water Separation:** UFI fuel filters have the capacity to separate water from fuel at a rate of **99.5%**. In the Iraqi environment, this is vital for protecting nozzles and fuel pumps.
- **Original Quality:** The filter you receive from **Mawaran** is the exact same filter installed on the production lines of **BMW, Ferrari, and VW**.

### 3. TEXA (ITALY)

"Global Leader in Diagnostics and Digital Inspection"

As the official agent for **TEXA**, **Mawaran** brings the latest diagnostic technology to local specialists:

- **IDC5 System:** A comprehensive software with the world's largest database for inspecting **cars, trucks,** and **industrial machinery.**
- **KONFORT Series:** Fully automatic **A/C** service stations holding multiple patents and precision certifications to protect refrigerants and cooling systems.
- **Certified Quality:** **TEXA** holds the **IATF 16949** certification, which is the strictest quality standard in the global automotive industry.

## 4. SAMOA (SPAIN)

"Engineering for Industrial Fluid Distribution and Control"

**Mawaran** is the sole official source for **SAMOA** in Iraq, providing advanced systems for oil and grease transfer:

- **NEX.U. System:** A digital innovation for the precise monitoring of oil expenses in large workshops and factories, preventing waste and human error.
- **Durability and Longevity:** **SAMOA** equipment is manufactured according to **EU** and **ATEX standards**, ensuring reliable operation in the harshest industrial environments.
- **Zero-Leakage Guarantee:** A technology that not only reduces costs but also serves as a "**Green Technology**" by protecting the soil and the environment.

# WAREHOUSING & DISTRIBUTION EFFICIENCY

The strength of **Mawaran** lies in "giving time back" to the customer. We maintain an extensive network of standardized warehouses strategically located across Iraq:

- **Erbil (Headquarters):** Serving as our main hub to provide seamless services for the **Northern region**.
- **Baghdad:** Our primary logistics center dedicated to meeting the demands of the **Central and Southern regions**.
- **Sulaymaniyah:** A key support and rapid-delivery center ensuring swift distribution.

## WHY CHOOSE MAWARAN? (KEY BENEFITS)

Choosing our products is more than just a purchase it is a guarantee of performance and longevity for your equipment through these strategic advantages:

- **Ultimate Protection & Durability:** All our products are manufactured to the highest global standards to provide maximum protection for engines and mechanical parts, significantly extending the lifespan of your machinery.
- **Cost Efficiency:** By utilizing authentic, high-quality technology, you prevent unexpected breakdowns and premature parts replacement, saving substantial maintenance costs in the long run.
- **Operational Continuity & Time-Saving:** Our solutions eliminate unproductive downtime. High efficiency means faster execution of tasks, leading to higher profitability in less time.
- **Environmental Responsibility:** Using eco-friendly technologies reduces waste and harmful emissions, contributing to the protection of our environment and a sustainable future for our country.

## OUR TRUSTED CLIENTS:

### A LEGACY OF QUALITY AND RELIABILITY

At **Mawaran**, we pride ourselves on being the trusted partner for **Iraq** and the **Kurdistan Region's** most prominent government entities and private sector leaders. Our long-term relationships with these organizations are built on the consistent quality of our products and our dedication to technical excellence.

#### ◆ **Government & Public Infrastructure**

- **Erbil International Airport:** Providing high-performance lubrication and maintenance solutions for one of the country's most critical transportation hubs.

- **Government Institutions:** Ongoing partnerships with various official departments and public agencies across the **Kurdistan Regional Government** and the **Federal Government of Iraq**.

## ◆ Construction & Large-Scale Development

• **Hemn Group:** Delivering advanced technical supplies and lubricants for one of the region's largest construction and infrastructure conglomerates.

• **Galyawa Group:** A strategic partnership focused on providing Rymax's specialized oils for their heavy machinery and diverse fleet.

## ◆ Food & Industrial Sector

The trust placed in us by leading food production and distribution companies is a testament to the purity and precision of our European products:

## ◆ Automotive & Service Networks

- **RC Service Branches:** Specialized automotive service centers that rely on **Rymax** as their primary choice for engine protection.
- **Safin Cars:** Trusted by major automotive showrooms to maintain the quality and performance of modern luxury and commercial vehicles.
